WICHITA AREA METROPOLITAN PLANNING ORGANIZATION

Date: January 9, 2006

TO: Wichita Area Metropolitan Planning Organization

FROM: Nancy Harvieux, AICP
Transportation Planning Manager

SUBJECT: Amendment to the Technical Advisory Committee (TAC) Bylaws

The Technical Advisory Committee (TAC) was created to provide technical support and make recommendations to the Wichita Area Metropolitan Planning Organization (WAMPO) Policy Body. The Policy Body expanded to include new members in 2005 as a result of the expansion in the WAMPO planning boundary.

The WAMPO Staff began researching other MPO's TAC structure to reflect the recent change in the Policy Body structure. In consultation with the Kansas Department of Transportation and the Federal Highway Administration, WAMPO Staff updated the TAC Bylaws to assure that it would continue to meet the needs of the MPO. After a comparative analysis with other MPO's, WAMPO Staff has reviewed and revised the current TAC Bylaws. The changes to the Bylaws will provide an opportunity for new partners and members, in voting or Ex-Officio positions, an opportunity to participate in the transportation planning process.

The current TAC Bylaws were approved March 30, 1981. A revision to the current TAC Bylaws (Attachment 1) is proposed to allow representation to communities that became part of the Metropolitan Planning Organization (MPO) due to changes in the WAMPO planning boundary.

RECOMMENDED ACTION:

1. *Adopt the 2005 Amendment to the Technical Advisory Committee (TAC) Bylaws.*

Attachment:

1. *Draft Technical Advisory Committee Bylaws.*

WICHITA AREA METROPOLITAN PLANNING ORGANIZATION

Date: January 9, 2006

TO: Wichita Area Metropolitan Planning Organization

FROM: Nancy Harvieux, AICP
Transportation Planning Manager

SUBJECT: **Public Hearing** to amend the 2006 Transportation Improvement Program (TIP)

Wichita Transit is requesting an amendment to the 2006 TIP in order to receive Federal Transit Administration (FTA) funds as part of their annual program. The Kansas Department of Transportation (KDOT) is also requesting a revision to their projects currently in the 2006 TIP (Attachment 1).

The KDOT has advised the WAMPO Staff that the region's STP, CMAQ, and Bridge Program has a positive balance of nearly \$7.0 million at the end of FY 2006. This positive balance is currently programmed in the TIP for FY 2007. In previous years, KDOT allowed the WAMPO to hold and carry over unobligated funds into future years. Present financial circumstances prevent KDOT from continuing the practice. If the WAMPO does not program and obligate the FY 2006 funds **by September 30, 2006**, the region will lose these federal funds.

The WAMPO Staff has coordinated with all communities and individual project sponsors to identify ways to program these funds. Options included: changes to existing projects to include shifts in year, increase in project costs, and a call for new projects for FY 2006. The Technical Advisory Committee (TAC), at its January 3, 2006 meeting, was provided detailed information on the project request received. After detailed discussion, the TAC recommended the Policy Body approve the proposed amendment (Attachment 2) that will allow for a fiscally constrained TIP document for FY 2006 and will address the funding issues.

A Public Comment and Review Period for the TAC recommended 2006 TIP began on January 4, 2006 and will run until January 17, 2006. The WAMPO will hold a **Public Hearing** at the January 19, 2006 Policy Body meeting prior to amending the TIP.

The proposed 2006 TIP amendment will allow:

- 1) Wichita Transit to include new projects into the TIP document;
- 2) the KDOT to revise existing project to reflect the new change;
- 3) shift in year for FY 2006 and FY 2007 projects;
- 4) increase in the federal share of FY 2006 projects; and
- 5) new projects to be included in FY 2006.

RECOMMENDED ACTION:

1. *Hold a Public Hearing on the 2006 TIP.*
2. *Approve proposed Amendment to the 2006 TIP.*
